At Shower Image we provide first class service, having done so for over 10 years. With elegant designs tailored to fit effortlessly into any space, our frameless shower screens are the pinnacle of luxury, style and design. The clean, polished lines of our shower screens allow a luxurious aesthetic that complements both the bathroom and the lifestyle that accompanies it; with each design providing exquisite practicality.

With a range of solutions available, we are able to create the perfect shower environment. By assisting with the design and manufacturing of quality bespoke 10mm glass, we are able to tailor each enclosure to your individual needs.

Timeless and elegant, each of our bespoke enclosures has the ability to bring sophistication into your bathroom.

Bronze tinted

## MAINTENANCE AND CARE FOR YOUR SHOWER SCREEN

Each piece of glass has been treated with easy clean glass protection that has a 10-year performance warranty, cuts cleaning time allowing glass to stay cleaner for longer, provides superior protection against staining and etching and repels both water and oil based stains. This treatment has only one application and no aftercare products are required. Furthermore, this reduces water usage and the need for chemical cleaners.

### MAINTAINING THE TREATED SURFACE

- // For best results simply dry the glass with a squeegee and cloth after each use to help keep the glass clean and prevent mineral spots from forming.
- // The glass should be cleaned every two weeks using a damp microfibre cloth and a mild detergent to break down soaps, oils and conditioners on the glass.
- // General glass cleaners can be used but are not required as the surface is easy clean.

### HARD WATER MAINTENANCE

- // In hard water areas, a build of minerals may occur where water drops have not been removed. To remove these easily, diluted white vinegar should be used to wipe down the glass.
- // In extreme hard water areas, we recommend using diluted vinegar every week.  
**CAUTION: Avoid the use of harsh or abrasive cleaning products which may damage the treatment and void the warranty – includes water spot removers, toothpaste, polishes, rough or gritty substances, and products such as Ajax or Jif.**
- // With correct maintenance these products are never required.

## ORDERING YOUR SHOWER SCREEN

- // Shower Image recommends that the dimensions are taken for your shower screen once the tray is fitted, and the tiling has been completed.
- // It is ideal that the tray is fitted level and the walls are square however, we understand that this is not always possible so just let us know what the dimensions are, and we will take care of the rest.
- // 10mm glass is very heavy; therefore, it is essential that there are appropriate grounds for our fixings wherever the shower screen meets a wall or ceiling. The minimum requirement is 12mm thick ply behind plasterboard.

## MEASURING AND INSTALLATION SERVICE

- // At shower image we are proud to offer a measure and installation service.
- // Fitting a frameless shower enclosure is a specialist skill and our in house service provides you with the confidence and peace of mind knowing that your shower screens have been fitted to the highest standard.
- // Our service is fully managed – effortlessly easy.

## OUR GUARANTEE

- // Shower Image shower screens have a lifetime guarantee.
- // All enclosures provided with a base profile are guaranteed watertight.
- // Our bath shower screens are not 100% guaranteed watertight being that they are frameless with no metalwork on the bath edge.
- // Shower Image offer exceptional customer service and excellent delivery times.
- // Terms and conditions apply (see below).

### TERMS AND CONDITIONS

1. The Lifetime guarantee applies to all metal components; non metal and glass parts are subject to normal wear and tear through usage and are offered a 3 year guarantee. The guarantee is available to the original purchaser upon proof of purchase and is not transferable.
  2. All products must be registered via the website within 30 days of installation.
  3. The guarantee is only available for products purchased for domestic use in the UK and Eire.
  4. This guarantee applies to products installed in accordance with our installation instructions, maintained according to our care instructions and used under normal showering conditions. Liability does not cover: a) Normal wear and tear, accidental damage, wilful damage or use of incorrect cleaning products. b) Breakage of glass. c) The effects of limescale, corrosion or mildew build up.
  5. Shower Image Ltd will not accept claims against defects found after installation, ie scratches on glass or profiles. It is the responsibility of the purchaser to inspect the product prior to installation.
  6. In the unlikely event of a product fault the original purchaser should report the details to Shower Image Ltd who reserves the right to inspect the installed product.
  7. Shower Image Ltd will at their own discretion, repair the product, replace the product for a similar product or offer a refund of the purchase price (subject to age, wear and tear and depreciation). This constitutes our sole obligation under the guarantee.
  8. Shower Image Ltd offer the guarantee on the product only and is not liable for any costs relative to the installation or replacement of its products.
  9. This guarantee is in addition to and does not affect your statutory rights.
- All information is correct at the time of print (September 2021) and is subject to change without prior notice.
